ACCIDENTALLY SHOT TO DEATH

Joseph Guy is Killed By Members of Hunting Party Who Mistook His Cap For a Rabbit.

PITTSBURG, Penn., Nov. 26.—Joseph Guy, a young man of West Swissvale avenue, was shot fatally Thursday morning while hunting rabbits on the outskirts of the city by members of the hunting party in which were his brother, John, and Frank Bradley, a lifelong friend. His cap was mistaken for a rabbit.

Guy died an hour after being shot. He leaves a widow and a babe of 11 days. His mother-in-law, Mrs. Ellen Smyers, fainted when the news of death was carried home, saying she had been expecting it, since no holiday in years had gone over her head without some relative or close friend dying.

Last Christmas Day Mrs. Smyers' husband died from heart disease, and previous holidays were marked with similar cases of death in the family.

WINS BRIDE BY WALTZING

Five Hundred Persons Saw Rivals For Young Woman's Hand Take Part in Endurance Waltz Contest.

NEW YORK, Nov. 26.—Five hundred persons saw William Huntington, of No. 16 Dresden street, Brooklyn, win a Marathon waltz and a bride in Somer Hall, Rockaway avenue and Somer street, early Thursday morning. Miss Nina Farrington was sought in marriage by Mr. Huntington and John Finlay. Being fond of waltzing, Miss Farrington could think of no more satisfactory test for a husband than an endurance waltz contest, and told her suitors that she would marry the winner.

The contest began Wednesday night. Mr. Finlay collapsing after three hours and a half of dancing with relays of partners.

"I could just die waltzing," said Miss Farrington to her fiance after the ordeal.

"I nearly did," he replied.

The wedding will take place next Sunday in the same hall. Mr. Finlay will be best man.

DREXEL CENTER OF ATTRACTION

Holder of World's Altitude Record Attempts to Fly to Philadelphia But is Unable to Do So.

PHILADELPHIA, Penn., Nov. 26.—Followers of aviation in this city were kept busy Thursday watching the fortunes of J. Armstrong Drexel, of this city, who Wednesday established a new world's altitude record, and Claude Grahame-White, the English man bird, who brought to a close a series of successful exhibitions at the Point Breeze race track, in the southern section of the city. Drexel again proved to be the star

attraction. He attempted to fly back to Philadelphia in a Bleriot monoplane from Oreland, Penn., where he landed Wednesday after his record-breaking flight, but he became lost and was forced to land at Trenton Junction, four miles from Trenton, N. J. Oreland is about 13 miles from Philadelphia, but Drexel, in his flight of one hour and ten minutes Thursday, traveled 20 miles.

Drexel landed because of a shortage of gasoline, having started with but little more than sufficient to carry him from Oreland to Point Breeze. He landed on a chicken farm, and said he had mistaken the Delaware River for the Schuylkill, and had traveled north instead of south. He had intended following the Schuylkill River to Point Breeze.

Drexel, after he had landed, telephoned the following statement to Philadelphia:

"I found myself over a river, and thinking it was the Schuylkill I started, as I thought, down it. Instead I afterward discovered it was the Delaware. I knew I was lost before I made my landing. The landing was made without mishap. I cannot tell what altitude I reached, for there was no barograph on the monoplane I know, however, that I was at any time very high."

Drexel, after arranging for the safe keeping of the air craft, returned to Philadelphia by train.

Claude Graham-White gave several exhibition flights Thursday and on one of his trips took aloft General James Allen, Chief Signal Officer of the United States army.

AMERICAN RED CROSS MEETING

President Taft Will Preside Over Session of Association For Municipal and Personal Hygiene.

WASHINGTON, D. C., Nov. 26.—President Taft will preside at the annual meeting of the American Red Cross in Washington on December 6.

The American Red Cross is one of the most influential philanthropic societies in the land. Its roster includes the names of some of the most noted men in the United States, and its work has time and again proved it to be a large factor in furthering the country's hygiene conditions.

Its activities extend from the Atlantic to the Pacific and from Alaska to the canal zone. Wherever there is flood, famine or fire its emissaries are present.

Its charities are under the direction of a central committee, which controls all the various State boards, and the State boards have charge of the local charities, making a detailed report to the central committee.

Perhaps one of the most interesting departments is that of the canal zone, under the charge of Major C. A. Devol.

The Herculean task of making this site of pestilence habitable for the hosts of canal engineers, workmen, clerks and Government employees was ably shared in by this society.

The society has issued a Red Cross Christmas seal for use on Christmas packages. These stamps will be sold to Christmas shoppers wishing to further the good work of the society in its campaign for municipal and personal hygiene.

GREAT BIBLE SCHOOL EXPERT

Rev. Robert P. Shepard, of St. Louis, Will Conduct Services at the First Christian Church.

Robert P. Shepard, of St. Louis, a great Bible-school expert and member of the National Association, will have charge of the exercises at the School of the First Christian church Sunday morning and will also preach at the morning service. He is a splendid speaker and has a great reputation in his field of work.

In the afternoon at 2:30 o'clock he will hold a conference of teachers and workers, which will be very interesting and helpful. The teachers and officers of the other Bible schools in the city and county are especially invited to attend this afternoon meeting.

Mr. Charles Ramsey was in Lexington Thursday.

CREMATED BODY IS DISCOVERED

Blackened and Charred Beyond Recognition, James Flynn, Who Had Been Fighting Fires, is Found.

MARION, N. C., Nov. 26.—Blackened and charred, the body of a white man, supposed to be that of James Flynn, who had been fighting the forest fires in the mountains, was found on Mt. Ida, just outside the city limits, by men who were fighting the fires there.

The body was pinned to the ground by a heavy piece of timber and the area about it was burned black. The man had evidently been caught by the falling tree and was incinerated alive.

Searchers had been scouring the mountains looking for Flynn since Monday evening, when he failed to return home after a day's fight with the fires.

The flames are sweeping the entire mountain range near this city and much damage has been wrought. There is but small prospects of extinguishing them without the help of a heavy rain. There has been no rain for weeks, and the fires have been raging for five days, while residents are fighting the flames to save their homes.

Several houses on the burned mountains have been destroyed, and it is feared Grant's Mountain, containing much valuable timber, will also be licked up by the flames.

GREAT WATER WAGON PARADE

More Than 1,500 Drunkards Signed the Pledge at Boozer's Mass Meeting in New York.

NEW YORK, Nov. 26.—The great water wagon parade of the Salvation Army was such an inspiring success Thursday that 1,500 drunkards signed the pledge at the "Boozers'" mass meetings, which followed in the army headquarters on Fourteenth street.

The parade was witnessed by thousands. Led by Colonel McIntyre the water wagon, with a recent pledge signed on top in a chair that had to be tied so that he wouldn't fall off, sailed triumphantly through the stormy aleoholic waves of Fourteenth street, moved majestically up Fifth avenue to Twenty-third street, rounded the rough capes of the Flat Iron Building and came back down Broadway with a red-faced, wobbly-kneed band of new converts in its wake.

It was a real sparkling wagon drawn by six horses. It bore the inscription in large letters: "Boozers, what about mother, wife and children? Get on the wagon." In the various divisions of the parade were banners bearing similar legends.

The army had been rounding up drunkards from every section of the city since the preceding midnight, and when the assemblage got back to headquarters there was a spirited meeting, during which men and women told the newly arrived water wagons the joy of being free of the curse of liquor.

OPEN MEETING.

The Missionary Society of the Washington street Presbyterian church will have an open meeting at the church Sunday at 7 p.m. Everybody invited.

RUN OVER BY L. & E. TRAIN

No Blame Attaches to the Train Crew, as Man Was Lying on Track in Mouth of Tunnel.

JACKSON, Ky., Nov. 26.—Frank Morris, a former employee of the Lexington & Eastern railroad, was run over and instantly killed by train No. 2 of the Lexington & Eastern, just as it came out of the tunnel east of Torrent Friday afternoon. The engineer noticed a man on the track as his locomotive emerged from the tunnel and put on the air in an effort to stop the train, but was unable to do

so and the body of Morris was terribly mangled, both legs and arms being crushed. It is not known how Morris came to be on the track, whether he was asleep or had fainted, or had been struck while walking on the track.

No blame attaches to the train crew, as the man was lying so close to the mouth of the tunnel that it was impossible to avoid running over him.

Morris leaves a widow and several children, who live near Tuncastle, Lee county. He had been a bridge carpenter for years on the Lexington & Eastern and also had worked on the narrow gauge of the Kentucky River Hardwood Lumber Company. He was a valued employee and an expert at railroad bridge construction.

The body was pinned to the ground by a heavy piece of timber and the area about it was burned black. The man had evidently been caught by the falling tree and was incinerated alive.

Searchers had been scouring the mountains looking for Flynn since Monday evening, when he failed to return home after a day's fight with the fires.

AUDITORIUM.

After Saturday night the vaudeville will be discontinued for the present season at the Auditorium theatre and Messrs. Bloomfield and Ratliff, not desiring to close the house up entirely have made arrangements with one of the leading picture firms of Cincinnati to supply them with the very best license pictures obtainable. Beginning Monday the Auditorium will run pictures exclusively, 2,000 feet of film which will make about forty minutes of splendid entertainment at the small price of 5 cents. The bill offered Saturday night is one of the best played here late and deserves a big house at each performance.

SAYS TAFT IS INDIFFERENT

Member of Association is Heartily Cheered When He Declared President Has Mistaken Sentiment.

ST. LOUIS, Mo., Nov. 26.—The charge that President Taft is growing indifferent toward a deeper waterway for the Mississippi river and contests between the factions in the State for representation on the committee marked the first session of the Lakes-to-the-Gulf Deep Waterways Association convention here Friday.

President W. K. Kavanaugh of the association, was cheered heartily by the delegates during the reading of his opening address when he declared President Taft has mistaken the sentiment of the nation.

The fight in the Illinois Republican delegation came to the surface when the delegation went into caucus to elect a representative on the resolutions committee. Senator Lorimer's friends selected Congressman Rainey for the resolutions committee, and Governor Deneen's followers named Isham Randolph. When the facts reported before the platform, efforts were made to compromise on one man, but without avail, and the scene bordered on a riot.

Delegates from other States gathered when Governor Deneen mounted a chair to still the tumult. The delegation was prevailed upon to move to a far corner. After an hour's wrangling it reported that Isham Randolph had been chosen for the resolutions committee and Congressman Rainey for the nominating committee.

Isham Randolph of Chicago, told the convention the waterways question was not a political one. He declared in favor of fighting for the deepest channel obtainable—if not fourteen feet, then twelve or nine feet.

Edward A. Halsey, of Chicago, took a positive stand in favor of a fourteen foot channel.

MISSING GIRL IS DISCOVERED

Telegram From Police in Cincinnati States That Miss Myrtle Cline Has Been Found.

Mrs. Alpha Cline Coebern, whose daughter, Miss Myrtle Cline, was lost and in trouble in Cincinnati, passed through Winchester from her home at Thompson Station to Cincinnati Saturday morning in response to a telegram received from the Chief of Police of Cincinnati Friday afternoon stating that her daughter had been found. The telegram merely stated that she had been found and was alive. Mrs. Coebern immediately upon receipt of the telegram made preparations for her return to Cincinnati and Friday morning was here in time to catch the early train for that city. Miss Cline was located Friday in a house on West Seventh street. When the detectives entered the room she shrank, a frightened picture figure in the corner of the room but after the detectives told her that her mother had been there looking for her and forgave her she went willingly to police headquarters.

After arriving at the police headquarters Miss Cline gave out the following statement:

"Logan made love to me and persuaded me to come to Cincinnati with him to be married," she said. "Every day he found some excuse for putting off the ceremony, and a month went by. It was many days before I began to suspect that he intended fooling me, and the realization of it all set me almost insane. I begged him to marry me.

"Tuesday afternoon I felt worse. He had gone out, and a party of little children in our neighborhood were planning some little Thanksgiving Eve celebration at their Sunday school. Their childish happiness and innocence gave me the keenest anguish.

WARNINGS.

Numerous Democratic newspapers are "praying" that the Democratic party, now that it will have some power in the federal government, may be spared from the "mistakes of the past." The Houston Post says that Democrats should "talk little, think much and pray without ceasing."

It will not be possible to avoid mistakes and if one gigantic mistake of the "past" be avoided, then any other errors will be trivial. If Democrats will avoid the mistake of imagining that victory lies along the pathway mapped out by the predatory interests then their course along the government highway will be comparatively easy.

A mighty danger threatens the Democratic party. It is the danger of passing under the control of men who, while posing as Democrats, represent the very elements that have dominated the Republican party and against which Republican insurgents have protested.

Democrats everywhere should "talk and think and pray;" but the talk should be Democratic language; the thought should be popular government; the prayer should be for public rather than for special interests.—The Commoner.

WHEN WE MET
GEORGE D. PRENTICE

For many years before the Civil War, George D. Prentice, editor of the Louisville Journal, was regarded, and justly so, as among ablest writers in the United States. After being exchanged as a prisoner of war we were camped for a short time early in 1863 at what was known as the Oakland race track, just south of Louisville. We had heard so much about Prentice that we wanted to see him. With our chum, we would walk the streets of the city and every now and then pick out some portly, fine-looking, well-dressed, elderly man for Prentice, but in each case we were wrong. Finally we two boys determined to see Prentice. The next time we got a pass we went straight to the Journal office and asked for him. After some trouble we were directed to his private office. We knocked and a weak voice

FALLING HAIR

EASY TO STOP IT AND MAKE IT
LUSTROUS AND BEAUTIFUL.

If your hair is falling out; if you have dull unattractive hair, or if you need a daily hair dressing, read what Mrs. Hettie Hodgman, of Nelsonville, Erie County, Ohio, writes June 3, 1910 about Parisian Sage:

"I used Parisian Sage for falling hair and find it the finest thing I ever heard of. My hair was falling out by combs full, and I could run my fingers through it and they would hang full of loose hair. I washed my hair and got a bottle of Parisian Sage and used two applications, and I could see a great difference. My hair was lustrous and nice and had almost stopped falling out, and by the use of one more bottle it stopped altogether."

For women, for men or for children Parisian Sage is without any doubt the finest preparation for the hair. It is guaranteed by Phillips to stop hair from falling; to eradicate dandruff and stop itching scalp in two weeks, or money back. It is a most daintily perfumed and refreshing hair dressing, free from grease or stickiness, and ought to be in every home where every member of the family could use it daily. Large bottles 50 cents at Phillips and drugstores everywhere. The girl with the Auburn hair is on every package.

AGED PASTOR
IS MURDEREDJohn Sears is Held Without Bail to
Answer Two Separate Charges of
Homicide.

TRENTON, N. J., Nov. 26.—The murder of Rev. Anzi L. Armstrong and his wife, Annie Armstrong, at their home at Dutch Neck Thursday night has resulted in charges being preferred against John Sears, who was held without bail to answer two separate charges of homicide. Rudolph Norhaus, who was brought to Trenton by the county authorities along with Sears, was allowed to go to his home in New Brunswick.

Prosecutor Grossley said he was satisfied that Norhaus was in no way connected with the murder. After having submitted Sears to examination, Crossley and County Detective Kirkham went to Dutch Neck and Sears' mother, the housekeeper in the Armstrong household, was impounded in the custody of constables. Mr. Crossley would not discuss the surveillance of the mother.

The investigation, it was said, established the fact that Armstrong and his wife were killed with a double-barreled gun, which was later found standing in a corner in the kitchen of the Armstrong home.

This gun was borrowed by Sears two weeks ago from a neighbor for gunning purposes.

Sears is a half breed and his mother is a negress. Mrs. Sears has been housekeeper in the Armstrong family for more than 30 years. The son, who is suspected of the murder, is 33 years old. Rev. Mr. Armstrong was one of the best known Presbyterian ministers in Southern New Jersey. He had been pastor of the church at Dutch Neck for 43 years.

Mr. Walter Smith was in Lexington Thursday.

great lack of reserve sea coast ammunition and that, at the present rate of appropriation by Congress, it will take more than 50 years to obtain a reasonable supply of ammunition for the coast defense and a still longer time to secure the necessary field artillery, guns and ammunition.

If the regular army and organized militia at war strength were called to arms today, says General Wood, there would be a shortage of more than 50 per cent in the field artillery necessary to equip them.

General Wood strongly urges the passage by Congress of the bill pending for raising a volunteer army in time of war. Other needs of the military service are set out in the report, including the addition of 610 officers to replace those detailed from line duties for staff and militia work, the creation of a reserve of not less than three hundred thousand men who have served in the regular army or militia; the concentration of the army in large posts; the re-establishment of the canteen and finally the increase of the signal corps and the acquisition of aeroplanes.

WASHINGTON, Nov. 26.—Major General Wood, Chief of Staff, paints a gloomy picture of the lack of preparedness of the army in case of war, in his annual report to the Secretary of War. The most serious weakness, he says, is in the shortage of field artillery and ammunition. General Wood declares there is a

large backlog of supplies.

True Economy.

The success of this store is built on quality, on the class of trade who realize true economy is a matter of values rather than prices, that the buying of "cheap garments," cheaply made, is false economy. We never studied quality more carefully than in our selections of Fall Suits, Skirts and Waists. It is a charming assortment of prices absolutely the lowest for the values they represent.

Strictly Reliable Furs

THERE IS MORE TO BE CONSIDERED than price in selecting furs. Quality, style, workmanship and refined appearance are factors that should be critically considered before you decide. In buying here you are sure of the utmost possible value, as every piece we show is the best of its kind, and comparison will demonstrate that our prices, in every instance, are lower than equivalent grades can be bought anywhere else in this country. We have now ready for inspection all the fashionable models in fur neckpieces, muffs, small furs and novelties of all kinds, in vogue this season.

The Selection of Your Suit Made Easy.

The selection of your fall and winter suit is a problem easily solved with a stock as large and varied in design as ours.

We fully appreciate that it is a perplexing task to make such a selection, and this knowledge, as well as a desire to give our patrons a selection of the VERY HIGHEST QUALITY and range of pattern, has led us to secure a fall stock of suits of exceptional beauty and quality.

Our suits offer the opportunity to select garments of the highest quality of the most DISTINCTIVE STYLISH EFFECTS IN FABRICS at once beautiful and serviceable.

How to Really Break a Severe Cold and End All Grippe Misery in Just a Few Hours.

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Dr. Pierce's Favorite Prescription

Is no "cure-all" humbug, but is made for just one purpose—to cure the weaknesses, painful disorders and irregularities of the womanly organism. It is

THE ONE REMEDY for these ailments, sold by druggists, devised and gotten up by a regularly graduated physician of vast experience in treating woman's peculiar diseases and is carefully adapted to work in harmony with her delicate organization, by an experienced and skilled specialist in her maladies.

THE ONE REMEDY for woman's ailments, sold by druggists, which contains neither alcohol (which to most women is the rankest poison) or other injurious or habit-forming drugs.

THE ONE REMEDY for women, the composition of which is so perfect and good that its makers are not afraid to print its every ingredient, in plain English on its outside bottle-wrapper, and attest the correctness of the same under oath—thus taking its users into their full confidence, and warranting physicians in prescribing it in their worst cases, which they do very largely.

It is foolish as well as dangerous to take medicine the composition of which you know nothing. Therefore, don't let a dishonest druggist prevail on you to accept a secret nostrum for this professionally approved medicine of KNOWN COMPOSITION. Every ingredient in its make-up has the strongest endorsement of the leading medical men of all the several schools of practice. Send postal card request for free Booklet of same.

Every woman may write fully and confidentially to Dr. R. V. Pierce, Buffalo, N. Y., and may be sure that her case will receive careful, conscientious, confidential consideration, and that the best medical advice in the world will be given to her, absolutely free.

In addition to this free advice, Dr. Pierce will send a fine French cloth-bound copy of his great 1000-page book, "The Common Sense Medical Adviser," to any woman who will send 31 one-cent stamps to pay the cost of mailing only.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. They work in harmony with "Favorite Prescription" when needed as a gentle laxative. Sugar-coated, tiny granules, easy to take as candy.

MARKETS

CHICAGO, Nov. 25.—WHEAT.—The one important thing this morning is the extremely weak Liverpool market. As the English authority "Broomhall" is in Argentine, it is assumed that less unfavorable crop news has been cabled from that quarter. Our position in this wheat for some days is this, that it is wise to go slow in fighting any bull operations based on sensational crop reports from south of the Equator and yet we feel that when this temporary bull enthusiasm is over that there will be a profitable bear campaign for those in a position follow the market. In the meantime direct cable news claiming injury to different portions of the Argentine crop may keep the trade in state of uncertainty.

CORN.—The belief prevails among conservative corn handlers and speculative leaders, that the firmness will not continue and a return of the selling pressure is expected as the movement from the new crop increases.

OATS.—Receivers look for a large movement. If it occurs the natural tendency of the market will be to follow any heaviness displayed in corn.

PROVISIONS.—Gelt says 26,000 hogs are on the market against 28,000 last year. Stockmen claim the movement will show a decrease after this week. Some selling by leading western packers held the market steady.

Speculation friendly to the product are watching the action of the market and for a spot to take on some. Selling has been largely in the way of liquidation by longs. Shorts are the best buyers.
